

Bøg Madsen launches new Homepage

I am glad today to present our new homepage, and especially the next generation of our e-business GreenBiz 24/7.

We hope that the new homepage will contribute to make it easy for our collaborators to find the information, ideas, and the inspiration they expect.

Since 2007 we have offered our customers an easy, informative and customer oriented GreenBiz 24/7. Still more customers find GreenBiz 24/7 a good supplement to our personal contact and relations. Therefore we see it as a natural development to offer even more advantages for our customers.

Especially the assortment has been even more customized, dynamic and better illustrated. Additionally our customers can find information about own data such as previous orders and offers etc.

We are looking forward to developing our co-operation.

Best regards

Bøg Madsen
